Continuation Sheet (PTOL-303) 110/035,537

Application No.

Continuation of 2. NOTE: Applicants have incorporated into claim 7, a new limitation of the substrate being selected from semi-conductors and dielectrics. While this limitation was previously presented in claim 25, claim 25 was a member of the claims that were withdrawn from consideration and not examined. Thus, this limitation would require further search and consideration.

Applicants have also filed a declaration under 37 CFR 1.132, stating that the relevant portions of the Morgan et al reference (journal article) were invented by the Applicants of this application and were not invented by the additional authors of the reference. The declaration is sufficient to overcome the rejection under 35 USC 102(a). Thus, the rejection is withdrawn.

Continuation of 5. does NOT place the application in condition for allowance because: Applicants arguments, with respect to the Behar et al reference are directed to the new limitations, which have not been previously considered.
